

Grinding Technology: A Focus Seminar "Cylindrical grinding" 2021

Invitation

Grinding is a well-rounded affair for you. Whether you machine tubes and bars or wire and cylindrical workpieces: In the new VSM Focus Seminar, our abrasives experts cover all applications.

How do you recognise the potential for optimising your application? What technical possibilities are there for assessing surface quality and what are their respective advantages? How do you identify possible sources of error and counteract them?

These and many other questions will be answered in the two-day seminar. The seminar is rounded off with a comprehensive practical section with useful tips and tricks.

After the seminar ...

- ... you will have in-depth knowledge of many cylindrical grinding applications.
- ... you will recognise the optimisation potential of your machines.
- ... you will be well practiced in the use of various measuring methods.
- ... you will have detailed expertise in applications.
- ... you can apply your newly acquired knowledge in your company with confidence.

Venue

VSM AG · Technical Center
Siegmundstraße 17 · 30165 Hanover

Date of the event:

Date	Language
26 - 27 April 2021	German*
